PROFESSIONAL SUMMARY

Operating Executive at Pattern LLC and Semcom BCA Rank 1 Gold Medalist with a 9.55 CGPA. Extensive background in full-stack web engineering, scalable system architecture, and offshore operational workflows. Experienced across React, Node.js, Python, PHP, MySQL, and modern cloud deployment pipelines.

WORK EXPERIENCE

Operating Executive

2026 – Present · Full-Time

Pattern LLC — Vadodara, Gujarat, India

Pattern LLC (US-HQ: Claymont, Delaware | UK: Patterns ITES Ltd, London) is a global BPO and IT-Enabled Services provider. Managed day-to-day offshore operations at the Vadodara delivery centre for international US/UK clients across staffing, data processing, digital media, and web development.

- Managed end-to-end daily operational workflows across the Vadodara offshore delivery centre
- Coordinated with international US/UK clients to meet SLAs and delivery timelines
- Supervised teams handling data processing, digital media production, and virtual assistance tasks
- Streamlined internal processes to improve throughput and reduce operational turnaround time
- Conducted performance monitoring and reported KPIs to senior management and executive leadership

Web Developer Intern

Dec 2024 – Present · Internship

Anugrah Accounting — Bharuch, Gujarat, India

Designed and developed the official corporate website end-to-end using PHP, HTML5, CSS3, and JavaScript.

- Owned the complete development lifecycle from requirement analysis to live production launch
- Developed responsive layouts ensuring seamless compatibility across mobile and desktop devices
- Built dynamic PHP backend components for client consultation inquiries and form handling
- Client coordination and scheduled milestone delivery

FEATURED PROJECTS

Glovix — Anand Overseas

2025 · glovix.netlify.app

React · Tailwind CSS · Netlify · Responsive Design

Premium consultancy platform for global education — IELTS coaching, visa counselling, and university placement across the USA, UK, Canada, Australia, and Europe. High-conversion lead generation with interactive country guides and sub-second page loads.

Anugrah Accounting Official Website

2025 · anugrah.gt.tc

PHP · HTML5 · CSS3 · JavaScript

Official professional website for a chartered accounting firm — dynamic PHP pages, service catalogue, server-side form validation and mobile-first responsive layouts.

Rangila Resto 2025 · rangila-resto.vercel.app

React · Vite · Tailwind CSS · Vercel

Modern restaurant experience with dynamic menu filtering, table reservation scheduling, and fluid responsive layout optimized for mobile diners.

StreamVerse — Video Streaming Platform 2026

React · Node.js · Express · MongoDB · Python · FastAPI

Full-stack video streaming platform with adaptive bitrate playback, user channels, comment threads, and a FastAPI microservice for personalized content recommendations.

BizBot AI — WhatsApp Business Automation 2026

JavaScript · HTML5 · CSS3 · WhatsApp Web API · Web Speech API

AI-powered conversational sales & support engine with intent detection, dynamic appointment booking, voice recognition, real-time WhatsApp dispatch, and CSV exportable CRM dashboard.

Bank Locker Management System 2024

PHP · VB.NET · MySQL · MS SQL Server · Windows Forms

Secure enterprise system for bank locker allocations with RBAC, deterministic occupancy tracking, normalized relational schema, and ACID transactional integrity.

CERTIFICATIONS

Python: Basic Structures — Python Institute, 2024

Python: Selection & Iteration — Python Institute, 2024

Foundations of Cybersecurity — Certified, 2024

Generative AI Chatbot — DevTown, 2024

Web Developer Internship Certificate — Anugrah Accounting, 2025
