EXPERIENCE

Operating Executive

2026 – Present

Pattern LLC

Intivia Tower, Old Chhani Road, Vadodara, Gujarat – 390024, India · Full-Time

Pattern LLC (US-HQ: Claymont, Delaware | UK: Patterns ITES Ltd, London) is a global Business Process Outsourcing (BPO) and IT-Enabled Services provider with a major delivery centre in Vadodara, Gujarat. The company serves international clients across the US and UK in domains including staffing & recruitment, data processing, digital media, virtual assistance, and web development. As an Operating Executive at the Vadodara delivery centre, managed day-to-day offshore operations, coordinated cross-functional teams, and ensured seamless delivery of client commitments.

- Managed end-to-end daily operational workflows across the Vadodara offshore delivery centre
- Coordinated with international US/UK clients to meet SLAs and delivery timelines
- Supervised teams handling data processing, digital media production, and virtual assistance tasks
- Streamlined internal processes to improve throughput and reduce operational turnaround time
- Conducted performance monitoring and reported KPIs to senior management and executive leadership
- Supported recruitment drives and onboarding for night-shift operations serving Western markets

Web Developer Intern

December 2024 – Present

Anugrah Accounting

Bharuch, Gujarat, India · Internship

Designed and developed the official corporate website end-to-end using PHP, HTML5, CSS3, and JavaScript. Built dynamic server-side form processing, implemented mobile-first responsive layouts, and coordinated directly with the client throughout requirements gathering, design, and deployment.

- Owned the complete development lifecycle from requirement analysis to live production launch
- Developed responsive layouts ensuring seamless compatibility across mobile and desktop devices
- Built dynamic PHP backend components for client consultation inquiries and form handling
- Client coordination and scheduled milestone delivery

PROJECTS

Glovix — Anand Overseas ↗

2025

React · Tailwind CSS · Netlify · Responsive Design

Premium consultancy platform for global education — IELTS coaching, visa counselling, and university placement across the USA, UK, Canada, Australia, and Europe.

- Interactive country guides and university program discovery
- High-conversion lead intake for visa and IELTS coaching
- Production deployment on Netlify with sub-second page loads

Anugrah Accounting Official Website ↗

2025

PHP · HTML5 · CSS3 · JavaScript

Official professional website for a chartered accounting firm — dynamic PHP pages, service catalogue, and contact intake.

- Complete client requirement gathering and design delivery
- Dynamic PHP service pages and tax consultation inquiries
- Client-side & server-side form validation

Rangila Resto ↗

2025

React · Vite · Tailwind CSS · Vercel

Vibrant, modern restaurant landing experience showcasing the menu, ambience, and online reservations with smooth animations.

- Dynamic menu filtering by cuisine and dietary preferences
- Online table reservation booking interface
- Fluid responsive layout optimized for mobile diners

Pixel Plus Media ↗

2025

React · Tailwind CSS · Framer Motion · Vercel

Production-grade portfolio for a media and content agency — bold visuals, motion-rich layouts, and a refined creative narrative.

- Curated media showcase with smooth entrance animations
- Client case studies with creative design metrics
- High-performance image loading and responsive viewports

Bank Locker Management System

2024

PHP · VB.NET · MySQL · MS SQL Server · Windows Forms

A secure enterprise system for managing bank locker allocations, customer records, and access logs with role-based access control.

- Role-based access control (RBAC) for bank staff and auditors
- Deterministic locker occupancy tracking and key allocation
- Relational database design with normalized access history logs

Laundry Management System

2024

VB.NET · PHP · MySQL · Windows Forms

A desktop and business application for managing laundry orders, customer records, and automated billing workflows.

- Customer order intake and garment status tracking lifecycle
- Service pricing and automated tax/discount calculation
- Print-ready invoice and pickup receipt generation

StreamVerse — Video Streaming Platform

2026

GITHUB

React · Node.js · Express · MongoDB · Python · FastAPI

A full-stack video streaming and content management platform with adaptive playback, user channels, and recommendation feed.

- Adaptive video streaming with offline caching
- Channel creation, subscriptions, and comment threads
- FastAPI microservice for personalized content recommendations
